

Quality Assurance Officer

Would you love to be a part of a multi national, multi lingual team, delivering first class service to our many and expanding customers? Are you interested in working in world class scientific services? Are you looking for a new role that gives you something new to do every day?

This may be just the job for you...

Here at Lonza we have an exciting opening for a Quality Assurance Officer to join us on site in Geleen on a full time, permanent basis.

The QA Officer is responsible for the planning and execution of daily quality assurance activities while ensuring compliance with international quality requirements as defined by the applicable guidelines (e.g. FDA, EMA, ICH) and all existing GMP standards in the area of responsibility.

Delivery of services in this role will include, but not be limited to:

- Planning and executing quality assurance activities (document management, batch records and label issuance, batch record review, equipment and supplier qualifications etc.) including documentation.
- Monitoring compliance with all applicable GMP and safety standards.
- Supporting the Qualified Person in his role, including audits and quality training.
- Writing, reviewing and approving documentation (SOP's, manufacturing and quality instructions, validation of protocols and reports, non-conformities, change requests). Handle, distribute and archive controlled documents.
- Preparing data for trending (QRB, Annual Product Review) and support internal and external audits.

This position involves judgement of batch related documents, therefore the position requires a very precise and responsible working attitude.

You should have the following experience/knowledge:

- Intermediate vocational education or BSc in chemistry/biotechnology.
- Knowledge of GMP is an advantage.
- Good communication skills in English.
- Accuracy, tidiness, self-organized, flexible, attention to detail, team player.

If you're a proactive, enthusiastic and organised person who'd like to hear more about this fantastic role, get in touch. Stewart.harvey@lonza.com
